### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicant's attorney Mr. Steven H. Noll on 10/19/2006.

The application has been amended as follows:

#### IN THE CLAIMS:

Claim 1, line 2, "adapted to admit and discharge" has been deleted and --that admits and discharges-- has been inserted; line 7, "adapted to engage" has been deleted and --that engages-- has been inserted; lines 8-9, "being adapted to mechanically interact" has been deleted and --that mechanically interacts-- has been inserted.

### ***Election/Restrictions***

2. Claims 1-13 are allowable. Claims 3,5-6, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among Group I-III, as set forth in the Office action mailed on 12/5/2005, is hereby withdrawn** and claims 3,5-6 hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a

continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Allowable Subject Matter***

3. Claims 1-13 are allowed.
4. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or render obvious in combination with the other claimed limitations of claim 1:

"said second longitudinal section having a shape that forces said connection element to interact with said actuator to produce said positive fit when said connection element is in said second longitudinal section and said first longitudinal section having a shape that automatically releases said positive fit when said connection element is in said first longitudinal section."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
